1.	Eligibility Criteria	-	Experience in execution of water supply pipeline works may also be considered along with sewer line works in pre-qualification criteria. The nature of work involved in both sewer line and water supply pipeline projects- such as trenching, pipe laying, jointing, backfilling, testing, and restoration- is technically similar and requires comparable expertise, machinery, manpower and project management capabilities. Our firm has successfully completed several water supply pipeline projects of substantial magnitude, demonstrating our technical competence, quality standards and timely project execution. Inclusion of water supply pipeline work experience in the eligibility criteria would allow experienced and capable contractors like us to participate, thereby enhancing healthy competition and ensuring quality outcomes for the projects.
